

Application No.: 09/728,534

Claim Listing

This listing of claims will replace all prior versions, and listings, of claims in the present application.

1. (currently amended). A sustained-release pharmaceutical composition comprising granulocyte-colony stimulating factor (G-CSF), polyol:oil and a thickener, where said composition is prepared by a process which comprises:

Docket No.: 01017/30010

- (a) mixing a solution of G-CSF in a polyol [[-]] to form a G-CSF:polyol composition;
- (b) suspending said G-CSF:polyol composition in a composition comprising a thickened oil <u>as a thickener</u> wherein the level of said polyol is in the range from 15%-30% by weight.
- 2. (currently amended) The pharmaceutical composition of Claim 1 wherein said polyol is a biocompatible polyol is selected from the group consisting of glycerol, erythritol, arabinose, xylose, ribose, inositol, fructose, galactose, maltose, glucose, mannose, and sucrose.
- 3. (currently amended) The pharmaceutical composition of Claim 1 wherein said oil of said polyol:oil is selected from the group consisting of sesame, castor, cottonseed, canola, saffron, olive, peanut, sunflower seed, a-tocopherol, Miglyol 812, and ethyl oleate.
- g: A. (previously presented) The pharmaceutical composition of Claim 13 wherein the thickener is aluminum monostearate.
- (previously presented) The pharmaceutical composition of Claim 13 wherein the thickener is white wax.
 - 6-7. (canceled)
- (currently amended) A process for preparing a sustained-release pharmaceutical composition compositions of G-CSF:polyol:oil which comprises:
 - (a) mixing a solution of G-CSF in a polyol to form a G-CSF:polyol composition;

Application No.: 09/728,534 Docket No.: 01017/30010

(b) suspending said G-CSF:polyol composition in a composition comprising a thickened oil wherein the level of said polyol in said composition comprising a thickened oil suspension is in the range from 15%-30% by weight.

9-12. (canceled)

- 1. 13. (currently amended) The pharmaceutical composition of Claim 1 wherein the thickener is selected from the group consisting of fatty acids, polyvalent metal salts of organic acids, alcohols, waxes and high-viscosity oils.
- 6. 14. (previously presented) The pharmaceutical composition of Claim 1 further comprising a stabilizer selected from the group consisting of a surfactant and an emulsifier.
- (previously presented) The pharmaceutical composition of Claim 1 wherein the solution of G-CSF comprises a solvent selected from the group consisting of water and glycerol.
- (previously presented) The process of Claim, wherein the solution of G-CSF comprises a solvent selected from the group consisting of water and glycerol.
- 7. XI. (previously presented) The pharmaceutical composition of Claim 1 wherein said thickened oil comprises hydrogenated vegetable oil.
